

Riparian Zone *Improvement*

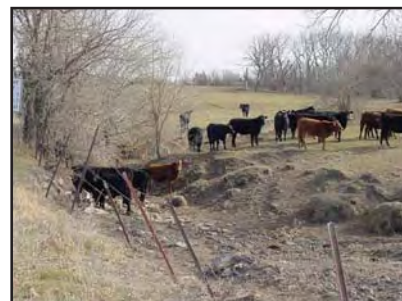

Mang Waste Management Project

Project Profile

Landowner(s): Tom Mang
Location: Miami County
Focus Area: Wade Branch / Hillsdale Reservoir
Habitat Restoration: Riparian Zone
Project Year: 2004
Project Cost: \$30,625

This project was submitted to the KAWS Eastern I-70 Chapter. It is an animal waste management project above Hillsdale Reservoir. The project moved roughly 400 head of cattle from a small confined feeding area to a more dispersed one further from the stream. The stream area was highly eroded, so 700 feet of fence was installed to restrict cattle access. An alternate water supply was also installed as part of this project.

The total project cost was \$30,625 with PMT approval for funding assistance up to \$20,000. The actual funding amount provided by KWO/KAWS for this project was \$19,910. This project ultimately affected 320 acres for improved water quality.
